Barcode Scanners

September 2024

Types of barcode readers:

- Standard
- Portable or “cordless”
- Combined cordless readers with stocktaking capability

All the readers below are available from Dataman Barcode Systems. Many other readers of other brands from other suppliers can be used with Bookmark. The prices shown are provided by this vendor.

Standard Readers

They are always connected to the computer by a USB cable. The reader can be plugged into laptops and tablets as well as standard desktop computers.

D-Tech DB-6000

\$121.00 incl GST plus P&P

laser scanner

\$121.00 incl GST plus P&P

CCD scanner

Hands-free stand to suit this reader

\$33.00 incl GST

D-Tech DB-9610

Reads both normal and QR type barcodes

\$198.00 incl GST plus P&P

Cipher Lab 1000A Touch Scanner

\$187.00 incl GST plus P&P

A reader that can be held close or on top of a barcode for easy scanning.

Hands Free Standard Readers

Hands free readers are connected to a computer using a cable and be hand-held or can sit in a stand. Pass the barcode in front of the scanner.

D-Tech DB-6210

A low-cost reader with a stand. Connects to the computer via a cable. Can be "on" all the time for instant scanning.

\$176.00 incl GST plus P&P

Other models of hands-free readers are also available.

Cordless Readers

Cordless readers communicate with the computer via a wireless bluetooth or infrared connection instead of a cable. The cordless readers below also include stocktaking data collection modes so can also be used for stocktaking away from the library via remote barcode collection.

D-Tech DB-5083 Cordless Portable Scanner

This reader can work over 80 metres from the PC and hold over 100,000 barcodes in its memory. Does not come with a stand (but see below). A simple set of barcodes are used as commands for stocktaking mode.

DB-5083 \$297.00 incl GST + P&P
Reads normal barcodes

DB-5013 \$341.00
Reads normal and QR barcodes.

D-Tech DB-6083 Cordless Portable Scanner and Data Collector for General Circulation desk use

Same as the 5083 above but includes a recharging stand. It can operate either cordless remote or hands-free on the stand.

DB-6083 \$352.00 incl GST + P&P
Reads normal barcodes

DB-6223 \$396.00
Reads normal and QR barcodes

These are only some of the readers available. See Dataman Barcode System's website for more information and a range of other readers.
