

FACT SHEET

Installing Bookmark to a single computer

March 2020

This document covers the installation of Bookmark version 10 to a single computer.

Refer to the *Setup and Networking Guide* for details on using Bookmark on multiple computers connected to a local network.

Windows versions

Bookmark works on 32 and 64-bit versions of Windows 7, 8 and 10. It will operate on Windows desktop PC's, Windows tablets and laptops, and on Windows-capable Macintosh computers using an emulator.

Installation Procedure

The Bookmark installation file can be downloaded from <http://bookmark.central.sa.edu.au>.

1. Left-click on the Installation File link
2. Open the downloaded zip file
3. Open the file Bmsetup.exe, which is inside the zip file
4. On the opening window, click on **Next**
5. Click on Next and then Next again and Next again. It is recommended not to change any of the settings.
6. Click on **Install**.
7. Bookmark is installed. Click **Finish**.
8. Close the Internet.
9. Open Bookmark. It will first set up files and then ask if this is a new installation. Click on Yes.
10. Enter the name of the school or library.
11. Do not enter a registration code. Leave blank. Click OK.
12. Restore the backup from school.
